Friday 8th September

Dear Parents and Carers

As you know we highly value the partnership between home and school and work to continuously strengthen this relationship. There are a number of ways in which we do this including having an open door policy, holding regular open afternoons and parents evenings and through the use of an app called Seesaw.

The app is a way to record children's learning and achievements which can then be shared with family at home. We have been using the app in school now for around 2 years and have a large number of parents who are already connected and access their children's accounts regularly. Feedback from parents has been very positive so we encourage as many parents as possible to get connected.

Attached is a more detailed explanation of what the app is and how it is used in school as well as your child's unique QR code so that you can create your own account, along with instructions of how to do so.

It is worth noting that your child may appear on other children's SeeSaw accounts, for example if they are photographed taking part in a group activity, however, only school staff and yourself will have access to your child's account. You will have completed a permission form relating to the use of photographs etc. in school and on the internet. This permission extends to the SeeSaw accounts. If you have any queries or concerns about this please do not hesitate to see me.

As previously mentioned, we would like to connect as many parents and carers as possible and if you have any further questions please do not hesitate to get in touch.

Many thanks

Mrs Eeles
Computing Co-ordinator
